## InterCast Banner

Trademark registered by Guandong. Third generation banner, the result of a thorough research. INTERCAST production process mixes the knife-coated banner technology with the one used for producing laminated banner.

This process gives life to a product which encompasses the softness and flexibility of knife-coated banner and the printing safety and chemical homogeneity of laminated banner. Ideal for all classic applications, INTERCAST banners do have many advantages during the printing stage. In an advanced testing phase, INTERCAST will be soon available on the market!

PRODUCT	LAYER (type/gsm)	FINITURA	FABRIC STRUCTURE	AVAILABLE	
				widths (m)	lengths (m)
