## Vehicle wrapping (convex and concave)

Long term outdoor very conformable film for vehicle markings on flat, curved, embossed or riveted surfaces.

Especially designed for solvent based & UV inkjet printing on wide-format printing equipment. The **PM** version is particularly indicated for printers using 'eco-solvent' or 'mild solvent' inks giving superb print results for high quality & high resolution printing. To achieve the best possible print quality, please make sure that the correct ICC profiles or printer settings are used.
