JWV ECO Solvent High Performance Inks for JV33™ & JV34™ Printers

- Colour compatible with Mimaki® SS2 I™ inks
- Chemically compatible with Mimaki® SS2 I inks
- No flushing or re-profiling required!
- Less waste due to cartridge by cartridge changeover
- Low odour
- Fast dry times
- Broader range of compatibility with low cost SAV and vinyl banner media
- Backed by INX Digital's Worldwide Outdoor Durability and Ink Train Warranty for TRIANGLE® brand ink.

Ink Train Warranty

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown during the initial OEM warranty period, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the ink train.*

*See warranty disclosure statement for details.

Outdoor Durability Warranty

INX Digital backs their products with their Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*

*See specific product durability warranty as some vary.

+ Ask a sales representative for INX Digital's complete Worldwide Ink Durability Warranty.

Eco Bulk Ink System

Eco Bulk is our new ink delivery system for wide format inks that takes a more sustainable approach compared to plastic cartridges while maintaining easy of use. With a unique cardboard design, it is comprised of one box instead of five, 440 ml cartridges and houses the ink within a foil bag. Once emptied, the bag is disposed of and replaced. The foil bag can contain up to two litres of ink, double the current industry standard of one litre packaging which results in less waste. Additionally, a test program showed that more volume allows for greater consistency of the product being delivered through the network. Contact your sales representative to see if Eco Bulk fits your workflow!

Easyreset

EasyReset is an automatic chip emulation system which overrides the electronic communication from the cartridge chip to the printer and eliminates the printers dependence on OEM chips. At printer startup the EasyReset will automatically communicate to the printer that the ink level is at 100% for each colour channel. A regular daily printer power cycle is all that is required to keep your EasyReset functioning at peak performance.

Colour Centre

INX Digital provides custom profiles to our customers. Every print shop is unique in their set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers various needs.

Spare Parts

INX Digital offers common replacement parts (at a significant saving over the OEM) for many of the printers that it manufactures ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems.
